

March West End

A riverside walking or cycling route

Total distance - 1.6 miles

1 West End Park

Start this route at the entrance to West End Park on the shared use path next to the skate park. Follow the path through the park, towards the river.

At the river bridge take the second path on your left to continue along the river. Keep to the right where the path becomes grassy track to remain along the riverside.

Distance 450 yards

of the park where you can turn back the way you came or rejoin the river bank to continue the full route.

2 Grass Bank

Follow the grass bank all the way to the A141. This section of the route provides a peaceful, elevated view of the park on your left and glimpses of the serene River Nene on your right. The track is a particularly pleasant route during the summer months but wet weather can cause the ground to become very boggy. Caution is advised.

Distance 0.4 miles

3 Bridge (A141)

At the road you will need to step over or walk around the safety barrier to access the short section of footpath along the main road (A141).

Please take extra care as this takes you close to traffic on this very busy highway.

At the far end of the footpath a steep track leads to the shared use path on West End. This is part of the National Cycle Network NCN63 which runs from Peterborough to Wisbech.

Distance 105 yards

4 West End NCN63

The return leg for this circular route takes you along the picturesque West End path. Admire riverside gardens and chocolate box cottages as you turn right and follow the path back towards the park.

Distance 0.6 miles

5 River Nene

At the river bridge turn right to enter the park once more and take the second path on your left to complete the route where you started.

Distance 300 yards

Alternative Route

To avoid the main road further along the route and the more slippery sections close to the river, you may choose to complete a circuit of the park only.

To remain on the parks path network, follow the path to left, around the skate bowl. This continues to the western edge
